I find the paper well structured and well written. I believe this paper tackles a very relevant and current global issue. More recent papers are available on the topic. The paper can be enhanced with more recent references (from 2020 to the present). I am recommending as an example:

Paquibut, R.Y., Legion, M.C., Islam, A.R.M. *et al.* Sustainable plastics waste management framework based on the analysis of people's awareness, knowledge, attitude, skills, and action: development of sustainable plastics waste management approaches. *Int.
