Some discussion of results can be included in the abstract. A more detailed description of the system, such as what level of voltage was maintained or considered accurate, can be included.

Also, the methodology section could be improved. The methodology section can include a discussion of how ROI was discovered. Charts and tables can be used to supplement the results and discussion section.

Overall, the article appears incomplete and lacks academic paper features such as a literature review, a detailed description of methodology, and so on.
