

Review of: "Gambling Prevalence and Factors Associated with Gambling Participation among University Students in Uganda"

Cornelius Fourie

Potential competing interests: No potential competing interests to declare.

Thank you for the opportunity to review this article. I found the article interesting and important as it addresses a subset of students' non-academic behaviour that one seldom hears about. I have taken note of the latest draft of the article and have worked through the changes and comments suggested by the different referees and followed by the authors – as far as I am concerned, I cannot add any further meaningful comments to improve on the readability or quality of the article.
