Potential competing interests: No potential competing interests to declare.

This article is about Auditing public schools' financial records: A study of financial management from the eyes of relevant stakeholders. I have the following comments that need to be addressed:

1- The abstract needs improvements to include:

- a. The main aim of the paper
- b. The methodology
- c. Brief findings, contributions, originality, and implications.

2- The introduction needs improvements; this should be based on the research problem, questions, and theory discussions. The research problem and questions should be discussed in the introduction. Further, the research gap that justifies your contribution with theory underpinnings needs to be discussed. It is necessary to discuss and mention how your research contributes to the strand literature.

3- The Literature review in its current format lacks supportive and recent literature. There is very limited literature used in the introduction. The authors should include the most recent and up-to-date research studies. The literature review in its current form is basic and simple. You should analyze, synthesize, and critically evaluate the research studies related to the topic to give a clear picture of the state of knowledge on the subject...
