# Harrier

National Cancer Institute

## Source

National Cancer Institute. *Harrier*. NCI Thesaurus. Code C53907.

The Harrier is similar to the English Foxhound, but smaller. A muscular hunting hound with a short, hard coat, usually lemon and white, red and white, or white and tan. The rounded ears are pendant. The feet are tight and cat-like, and the front toes may turn inward. Height: 19-21 inches (48-50 cm.) Weight: 40-60 pounds (18-27 kg.)
