Acquired epidermolysis bullosa

INSERM

Source

INSERM. (1999). Orphanet: an online rare disease and orphan drug data base. Acquired epidermolysis bullosa. ORPHA:46487

Epidermolysis bullosa acquisita (EBA) is a subepidermal bullous dermatosis of autoimmune origin that was named as a result of its resemblance to hereditary forms of epidermolysis bullosa (HEB), most notably dystrophic HEB.
