Potential competing interests: No potential competing interests to declare.

The article is well written and discusses the specific thesis well. I have just few cosmetic comments to improve its objectivity and organizational structure;

1. Would be nice if you add the title of Mr Moi is right at the start in both the abstract and the introduction.
2. I would change this Brief History of Daniel Toroitich arap Moi to maybe: History of Moi's coming to power?
3. The United States? This title needs to be more descriptive.
4. The Importance of This Study and Justification and Objective of the Study should be together
5. The section of Kenya-Israel/Palestinian Conflict it should be either Kenya-Israeli/Palestinian Conflict or Kenya-Israel/Palestine Conflict, otherwise the title suggests a political position in favour of Israel. Also, in the section the author should mention Libya's position and Gaddafi's since he had worked hard to keep Kenya away from Israel and the move to normalize relations had upsets Kenya's relations with Libya and stopped some Libyan investments.
6. Recommendations should come before the conclusion.
