# Sumac/Black Cumin Powder

National Cancer Institute

## Source

National Cancer Institute. *Sumac/Black Cumin Powder*. NCI Thesaurus. Code C128559.

An Iranian traditional herbal medicine composed of powder derived from sumac and *Bunium persicum* (black cumin, black zira), with potential anti-emetic activity. Upon oral administration, sumac/black cumin powder may inhibit chemotherapy-induced nausea and vomiting (CINV). The powder may also have some anti-oxidant activities.
