Potential competing interests: No potential competing interests to declare.

Refine language and formatting as needed for consistency with target journal guidelines.

Clarify a few statements in the introduction and literature review sections for improved flow and contextualization of the topic.

Strengthen the description of the methodology by providing more details on the research design, data collection tools, and analysis approach.

Expand the discussion section to further interpret the results in the context of previous studies. More comparisons and connections to the literature could deepen the analysis.

Proofread the manuscript again carefully to correct any minor grammatical or formatting issues before final submission.
