Potential competing interests: No potential competing interests to declare.

An improved version. However, the following areas are not addressed:

1. Under Abstract, state the reason why the internship programme during Covid-19 is different from the normal internship programme to give readers a perspective behind the need to conduct this study.
2. Most of the citations are still outdated and do not reflect the latest developments in internship programme studies.
3. Explain the disconnect between the internship report analysis of 20 students and the final internship reports of 64 students.
