Introduction

In the following work I will carry out a review of the previously mentioned article. This will briefly encompass its general areas of opportunity, as well as some specific points that I consider to be relevant, as by changing them, the article, in its totality, will improve in the way it delivers its message to the readers.

Review

Orthographic and grammatical improvements:

The provided text appears to be well-written with minimal orthographic mistakes. However, there are a couple of suggestions for improvement:

1. In the paragraph starting with "Financial literacy refers to the knowledge, skills," there's a minor formatting suggestion:
2. Section 2.3:
 - a. "Empirical Review and Hypothesis" - It might be clearer to say "Empirical Review and Hypotheses" to match the plural form of "hypotheses."
 - b. "Hence, the empirical review and hypothesis have been developed accordingly." - It could be clearer if you specify what the empirical review and hypotheses were developed for.
3. Section 3.2:
 - a. "Quantitative research is a method of empirical investigation that emphasizes the use of mathematical and statistical analysis to measure and quantify data." - Consider starting a new sentence for better clarity.
4. 8. Section 4.4:
 - a. "The researchers discussed the potential implications of each variable based on empirical evidence and theories of

financial literacy." - Consider specifying what the researchers discussed for better clarity.

5. 9. Section 5 (Conclusion):

- a. "So, MSMEs owners or managers, as well as government agencies, should pay attention to enhancing the positive financial attitude of MSMEs." - Consider rephrasing for better flow, e.g., "MSMEs owners or managers, along with government agencies, should focus on enhancing the positive financial attitude of MSMEs."

These are minor suggestions to enhance clarity and consistency. Overall, the article is well-structured and informative

Redaction improvements:

I highly recommend to re-read the whole text to correct said errors, it would be an impactful improvement.

Conclusion

Over all, it is certainly a good article, the topic is interesting, denotes a comfortable previous investigation, the type of vocabulary matches the intended audience, it just lacks a bit of carefulness in terms of writing and redaction, nothing that cannot be quickly fixed.
