

Review of: "Assessing the Impact of a Group Intervention on the Mental Well-being of Undergraduate Healthcare Students"

Krutideepa Mohanty

Potential competing interests: No potential competing interests to declare.

The topic is very important for the present days as it is the requirement of the time to provide mental Health care to the professional students. The article is well written. Just some modifications required that I have mentioned below.

Please do expand the abbreviations once and keep the expansion and abbreviations in separate bracket.

Please do add the study implication in the conclusion.

Kindly mention the sampling technique in detail.

Kindly add the novel finding of the study in the discussion chapter.

Please add the conflict of interest and the funding status can be added.

Thank You
