

Review of: "Effect of Supplementation with *Moringa oleifera* on Antioxidant and Oxidative Stress Biomarkers of Infertile Women: A Pilot Open-Label Randomized Clinical Trial"

Felix Ayisi

Potential competing interests: No potential competing interests to declare.

The research methodology was well designed, and the article was good for publication, but these few points must be looked at.

1. Part of the *Moringa oleifera* used in the capsule should be made clear.
2. A brief description of the plant sample preparation should be stated.
3. Why 2g of the *Moringa oleifera*, was it based on body weight or what?
