## Interesting Research with Many Original Elements

### Observations:

#### Preface:

It would be good to specify the exact number of participants.

#### Introduction:

It is essential to include the most up-to-date research data.

Regarding "Self-efficacy," reference should be made to primary sources.

The references should be organized alphabetically.

#### Research Questions:

Clarifications should be provided as to why these specific questions are chosen.

#### Methodology:

Including the questionnaire items would facilitate the understanding.

Demographic information about the respondents is not mentioned.

#### Results:

It would be helpful to consider conducting a step-wise multiple regression analysis to explore potential statistical models.

#### Conclusions:

The conclusions should take into account the revision of the introduction.
