Potential competing interests: No potential competing interests to declare.

Kindly include results in the abstract.

Include the prevalence of the disease worldwide and in India in the introduction section.

Needs to improve the methodology section. It is vaguely written.

Architecture of CNN is not clear. Explain the CNN architecture in the methodology section.

Find out the accuracy, precision, F1 score, and recall for the *Architecture of CNN for detecting Fatty Infiltration and Atrophy of the Rotator Cuff*.

Plot the training and validation curves of the model for better understanding for the readers.
