Potential competing interests: No potential competing interests to declare.

The article with the title "Assessing the Role of Consumer Cooperatives in Improving the Livelihood of the Members of Hawassa Zuria Woreda, Sidama Regional State, Ethiopia" is well-written and clear.

The introduction mentions the study's aim to fill a research gap but lacks clarity on the specific gap. Providing a detailed explanation of what remains unstudied or unclear about consumer cooperatives in the Ethiopian context is crucial for readers to grasp the study's significance.

While the writing emphasizes the benefits and opportunities of implementing recommendations for consumer cooperatives in Hawassa Zuria Woreda, addressing potential counterarguments or limitations would enhance the argument's strength.

To fortify the argument, it's crucial to acknowledge and address potential counterarguments or limitations of the recommendations. This showcases a comprehensive understanding of the topic, bolstering the credibility of the proposed solutions.
