Potential competing interests: No potential competing interests to declare.

Even though the paper addresses significant topic in the finance literature, there are some points that will increase quality.

The contribution of paper should clearly explained.

The sample period is 2022-2023. The author(s) should explain why this time span is selected. It is also beneficial to explain the dynamics of these period such as Covid-19, Russia-Ukraine conflict.

The empirical findings should compared the literature, and policy discussions should be added.
