

# Review of: "Translational Mobility Medicine and Ugo Carraro: A Life of Significant Scientific Contributions Reviewed in Celebration"

Francesco Pesavento

Potential competing interests: No potential competing interests to declare.

This work is not, obviously, a scientific paper. However, I believe that Prof. Carraro's scientific stature certainly deserves an article/review celebrating and summarizing his contributions in biology, pathophysiology and care of the musculoskeletal system. The article presents very well the research areas, expertise, and related contributions of Prof. Carraro.
