Many thanks for your submission. this is a nicely written submission, however some major flaws need to be corrected before publication.

1) please make a full grammar check all over the manuscript

2) introduction: please add a sentence with regards to diagnostics of lymphatic pathologies. after this phrase: "It necessitates a multidisciplinary approach to postoperative care, integrating clinical examination with radiologic imaging and, when indicated, dermatological assessment to ensure early detection and management of metastatic complications such as Carcinoma erysipeloïdes"

add the following phrase:

".. Carcinoma erysipeloïdes diagnosis may be challenging: the lymph node invasion and the use of advanced diagnostics of lymphatics may be of use for diagnosis of this aggressive pathology.."

please cite the following:
