

Review of: "Assessing Sex Education Awareness Among Higher Secondary School Students in India"

Roseline Dzekem Dine

Potential competing interests: No potential competing interests to declare.

Thought this is a preprint, the background is too vague with missing literature thus difficult to tell or judge what the problem or gap is.

Regarding data collection, how were the 50,000 selected? Was there any form of ethical approval? How was data managed and analyzed?

Qualitative findings were omitted.
