Comments:

1. Add a sentence regarding the importance of water quality to the start of the Abstract.
2. Revise the Abstract to be briefer with more numerical results.
3. Use the common unit of "mm" for precipitation. "The total annual precipitation averages 492.9 litres/m2."
4. Check the writing manner of "pH" in **Table 5**.
5. Add more results to the Conclusion section.
6. Compare your results with more from the literature.
7. Pl. use some more recent references.
8. Add the limitations of your study to the end of the Discussion.
