Cutaneous Melanoma Clinical Regional Lymph Nodes TNM Finding v7

National Cancer Institute

Source

National Cancer Institute. *Cutaneous Melanoma Clinical Regional Lymph Nodes TNM Finding v7*. NCI Thesaurus. Code C88399.

A clinical finding about one or more characteristics of cutaneous melanoma, following the rules of the TNM classification system as they pertain to staging of regional lymph nodes. The TNM clinical and pathologic regional lymph nodes classifications of cutaneous melanoma are not the same. TNM clinical regional lymph nodes findings are based on clinical/radiographic exam of the regional lymph nodes. (from AJCC 7th Ed.)
