Comments and Suggestions:

Methodology

1. Include a map of Syria showing the geographic areas covered by the sampling to help international readers understand the context of these areas.
2. Provide details on how the data collection was initially conducted electronically, whether through social media, personal email, or other methods.
3. Briefly describe the purposive snowball sampling method used in this study.
4. Combine the subsections "Data Collection," "Data Collection Method," and "Data Collection Tools" under "Data Collection Method" for a more comprehensive discussion of the methods.

Results

Participant Demographics

1. Include the percentage or number of participants for each age group in Figure 1 (Age Distribution), Figure 2 (Gender Distribution), Figure 3 (Geographic Region Distribution), and Figure 4 (Educational Level Distribution). Alternatively, you may use a table to present the demographic profile of participants for easier visualization.
2. Include the percentages for the primary reasons for yerba mate consumption in Figures 5 and 6.
