Trabulsiella guamensis

National Cancer Institute

Source

National Cancer Institute. *Trabulsiella guamensis*. NCI Thesaurus. Code C86823.

A species of aerobic, Gram negative, rod shaped bacteria assigned to the phylum Proteobacteria. This species is oxidase negative, motile, fermentative, and nonpigmented. *T. guamensis* has a biochemistry profile similar to that of *Salmonella* sp. and has been found in human stool but its pathogenicity is unknown.
