

Review of: "Consciousness, Neo-Idealism and the Myth of Mental Illness"

Alireza Farnam¹

¹ Tabriz University of Medical Sciences

Potential competing interests: No potential competing interests to declare.

The article has thoroughly explained the matter of consciousness and the dualistic explanations for the hard problem of the relationship between brain performance and subjective experience.

The critical stance of writer towards Thomas Szaz's ideas is helpful in modulating the psychiatrist's pre-assumptions regarding diagnosis and treatment of psychiatric disorders.

The article is well-organized and publishable without any change.
