

Review of: "Clausewitzian Coup d'Oeil: The Extraordinary Intuition of the War Genius"

Virgilio Ilari

Potential competing interests: No potential competing interests to declare.

It is a work of outstanding acumen as well as scientific and philological rigor. Investigating the complex stratification of the text of Vom Kriege, he places the genesis of the Clausewitzian concepts genius of war and "coup d'oeil" in the broad cultural context of the time and demonstrates a sure mastery of Clausewitzian historiography.
