Potential competing interests: No potential competing interests to declare.

The topic(s) of the article is interesting.

However, the English form, use of abbreviation (e.g., LC in the Introduction), is full of mistakes. Please, accurately revise them.

What are the methods used to review literature? Please, specify them.

Please enrich the data presented in the paragraphs.

Please update the figures' quality, which is very poor and sometimes simplistic.

Conclusions must be rewritten and made more critical of results.
