Potential competing interests: No potential competing interests to declare.

1. I would advise the authors to introduce us to Zimbabwe through the socioeconomic indicators of the last ten years
2. It is also important to explain the current political system in Zimbabwe in general and with specific measures dealing with veterinary services.
3. Please provide information about farms' socioeconomic situation and agricultural policy elements important for the topic.
4. Try to compare different systems and solutions with the help of literature (maybe through some table, diagram) and explain which one and why could be good approach to solve the problem in Zimbabwe.
