The topic of this paper is undoubtedly interesting. I would suggest some minor improvements, before publication, such as:

- a more comprehensive background in the introduction about the issue of gambling to give a more complete picture, also to readers who are not experts.
- a deeper analysis on the relationship between the strictly legal aspects of regulation and the social factors that play such a relevant role
- It would also be interesting a follow up on the research to verify any changement in the data collected.
-
