Dear Author

Thank you for giving me this opportunity to review your work. I will start by saying that it is a job well done, but nevertheless, I have some suggestions:

1. The title is too long. Maybe you can consider reducing the number of words in the title. Example: PREVALENCE, ASSOCIATED FACTORS OF HEMORRHOIDS AND OTHER PERIANAL COMPLICATIONS DURING PUERPERIUM.
2. The research aim is not clearly mentioned.
3. Method of data collection is also not clear, as I don't understand when and where the data was collected. Was it in the antenatal clinic, labor ward, or postnatal ward?
