

# Review of: "Does a 'Creativity Crisis' Truly Exist Among Science Learners?"

L.L. Portela<sup>1</sup>

<sup>1</sup> Universidad de Vigo

**Potential competing interests:** No potential competing interests to declare.

The study is really interesting and importan nowadays. After reading it, one of the most important aspects that I consider to detail is the section on the information collection instrument.

Thus, I suggest further detailing the instrument for collecting information.

Is it a validated instrument? Has it been created for this study?

Furthermore, table 1 is not well understood.
